Sheridan would like to go to the Legislature and make an earnest effort in behalf of the laboring man and farmer. He does not want the office simply as a pastime or plaything.

With Dowie's "hosts" making a house to house canvass and the majority race as hot as pepper the people of New York City may be said to be "between the devil and the deep blue sea."

Dowie, who calls himself "Elijah" No. 2, and has fooled a lot of innocents into the belief, has taken hundreds of his followers to New York City to "restore" the wicked old town. Dowie is making the business pay handsomely. One evidence of his prosperity is that his wife wears a little fortune in jewelry. A \$1500.00 brooch was stolen from her as soon as she landed in New York.

Mr. Belknap has complained in private conversation about the treatment accorded him by the Republicans at Pikeville when he went there to speak last week. It seems that no committee waited on him and he was left to the mercies and courtesies of a prominent Democrat who happened to be around the hotel. Perhaps Mr. Belknap thinks this was on account of his voting for the colored man against a Pikeville citizen.

"I have considered the question thoroughly and decided that I can best serve the public by voting the Democratic ticket, State and local,"—John M. Atherton.

Mr. Atherton stated that while desirous of remaining in the background he has decided to support the Democratic ticket and lend such assistance as he can. His action will have great effect, as he is one of the city's most successful business men, and is known throughout the State. He has been supporting the Republican candidates for several years, but has become disgusted with the conditions existing.—Courier-Journal.

If you were ever in Judge Kinner's court you know how he dispatches business. Did you ever see a Judge who pushed it better than he? No, for there is not one in the State who surpasses him.

and but few who are his equal. Also, it is the rarest instance and only on the closest questions that his decisions are reversed by higher courts. No one who is at all acquainted with the conditions would say that they could hope for any improvement in affairs by making a change in the Circuit Judgeship.

When Republican orators talk about the \$100,000 reward fund authorized by the Legislature, they are very careful to not tell their hearers that \$95,000 of that money is still in the State Treasury and will probably always remain there, because the assassination conspiracy has been ferreted out by officials and attorneys, who do not come in for any reward. The \$5,000 spent was used in legitimate expenses, every item of which is on record in Frankfort. The Commission is composed of men of the highest honor. Not a dollar has been used to corrupt a witness, juror or anyone else. The trials have been absolutely fair. There have been Republicans on every jury in almost or quite the proportion of white Democratic and Republican voters in the counties where the trials have taken place. All have declared Powers, Howard and Youtsey guilty. No explanation or apology is offered for not using colored jurors.

MATTIE

Items are not very plentiful here but will try to find a few for your paper. Rev. H. B. Hewlett preached a very interesting sermon here Sunday. Several gave their hands asking for the prayers of the church. The recent rains have brought plenty of water for the stock. People are gathering round the "turn out" is short. Dave Justice and Felix W. Thompson have sown a good crop of rye. A. L. Moore and Robt. Mead are sawing lots of cross-ties and lumber on the head of our creek. There are from 15 to 30 wagons passing our place daily, some of them from Johnson and Morgan counties, hauling produce down to your town and taking goods to the stores in the upper counties. Thomas Ball takes his fine two-horse rig and visits Mart Hayes' every few days. Miss Mary McComis has typhoid fever. One of Jack Castle's girls is very low with consumption. Madam rumor has it that the Republicans are not obligated to vote for the Mt. Sterling man, as he is not a resident of Lawrence nor Boyd counties, and that he is not the regular nominee of the party, as there were five districts counted for him that should have been counted for Thompson, and one for Moore and one for Miller that should have been counted for Thompson, which would have given Thompson ten to start on; and one district not having any convention, which, of course, gave Thompson one-half of the Lawrence county vote. Then, of course, on the second instruction Thompson would have come in. But, that did not suit Labe nor Charley. Consequently, there had to be a change, or the Boyd county delegation make the nomination, which it was rumored it would do if it took that to give it to the Mt. Sterling man. Thompson says he has no more axes to grind, but he will help anybody grind his malice. Now, Mr. Editor I have a question to ask. I do not call on you to answer, but on all the Divines of Lawrence county, and if you can induce them to answer correctly, and all agree in the answer, and give their answer in the BIG SANDY NEWS I will take your paper for the next five years, and pay at the beginning of each year. A BIBLE QUESTION:—The Kingdom of Christ, is it in the people of God, or are the people in the Kingdom of God? Let each one give his reason for his answer. Let each sign his name to his answer, either proper or fictitious, as he may choose. Send me the BIG SANDY NEWS. Some body will say this article was written by Jack.

Kicking About Roads.

We hear that there is considerable dissatisfaction in some quarters about the present road system. It seems that the loudest complaint is based on the fact that in some places the overseers have forced men to go unreasonable distances from their homes to work. Having heretofore published expressions of satisfaction heard from other sections we give this also just as we have heard it.

RECORD OF KIRK FAMILY.

A. J. Kirk, Republican nominee for Circuit Judge in the up Sandy district, will lose many votes because of the rampant attitude of his family in the campaign in which the Bluegrass negro Asbury ran against George Cull, of Pike county, for Register of the Land Office. Not only did everyone of them, who was old enough, vote for the negro, but some of them wanted to fight any one who had any remarks to make about it, and several fights were narrowly averted. Many Republicans refused to vote with them or endorse their action. The voting was then done openly and the record is in the Martin county clerk's office subject to inspection. X.

BUCHANAN.

Misses Kate and Bina Martin of Columbus are the guests of the Misses Hatten's. Mr. and Mrs. L. B. Compton, of Huntington are visiting relatives here. J. W. Bostick is visiting Catlettsburg friends this week. Miss Lizelle Hatten returned home from French Lick, Ind., Saturday. Noah Hodge of Hurricane a carpenter fell from a building here Wednesday and sustained very painful injuries. He was taken to his home Thursday. Uncle Tom Brown was struck by the train a few days ago. We are glad to say he is able to be out again. Misses Emma and Meta Wallace are here to attend the Wallace-Hatten nuptials. Miss Eliza Stewart of Ashland, who has been visiting Miss Annie Stump, the past week returned home Tuesday. Miss Mabel Smith came home Monday from an extended stay with her brother at Dwaile. Mrs. Jas. Austin of Fallsburg, was here last week for medical treatment. Our literary is still flourishing with increased attendance. Jay O'Daniel and Jas. Stump, Jr., spent Saturday in Catlettsburg. A special from Bloomington, Ill., has the following of interest here concerning an alleged officer from the Big Sandy country: "A middle aged, well-dressed man, representing himself to be Deputy Sheriff John Palmer, of Floyd county, Ky., called upon the police authorities here today, claiming to have a warrant for the arrest of John Hall, who, he thought, was under arrest here on a charge of murder in Kentucky. His only credentials were a type-written letter of introduction which bore the name of the County Clerk of Floyd county and was dated Prestonburg, October 14th. "The authorities believe he is a demagogue, as there is no prisoner of that name here. He will be kept under surveillance until word is received from Prestonburg."

Paintsville, Ky., October 19.—At Delong Ford, this county, a free-for-all fight occurred, in which Jason Hall and Jeff Stevens were instantly killed and Tom Music fatally shot. The trouble began in church during the sermon. A commotion was heard in the back of the house, and when the congregation turned to ascertain the cause the gleam of revolvers and knives met their eyes.

When the firing began, the participants finding their way into the open air, the congregation became panic stricken and screaming women and children made a frantic effort to escape.

James Stevens, it is alleged, fired the ball which killed his brother Jeff. While covered with Tom Music's pistol, James Hall fell dead from heart failure. An instant before, a ball fired from an unknown source struck Music in the side, fatally wounding him. The excitement was intense. The cause of the trouble could not be learned. No arrests have yet been made.

Bristol, Tenn., Oct. 18.—It is now five days since E. L. Wentz, the young Philadelphia millionaire so mysteriously disappeared in the mountains of Wise county, Va., and notwithstanding a party of a thousand men have been scouring the mountains for four days, as yet no clue whatever has been gained as to what became of him.

The missing man's brother, Daniel L. Wentz, has increased the reward for the finding of the young man from \$5,000 to \$25,000, provided he is returned alive.

The reward, if the young man should be found dead, is \$5,000. The party is still searching, but gained nothing in today's work.

The father of the missing man is hurrying to the Virginia coal fields from Philadelphia, and will go to Big Stone Gap on a special train immediately upon his arrival here.

The most plausible theory is that young Wentz has been murdered in the mountains as a matter of spite work for his firm hand in dealing with trespassers on the lands of the Virginia Coal and Iron Company. It is not improbable, however, that professional kidnappers from a distance were in hiding, and for the possession of the young man to hold him for a ransom. The excitement continues in the coal region, and the whole matter is looked upon as an unprecedented mystery.

The Wentz estate in Wise and adjoining counties in Virginia is conservatively estimated to be worth \$20,000,000. The family purchased all this property fifteen years ago for about \$100,000. They started out with a fortune of \$600,000, of which amount \$500,000 was bequeathed from their uncle, the late Congressman Leisenring, of Pennsylvania, the remainder having come through their grandfather.

THE NEXT DAM.

Ohio Valley Improvement Association Pledged To Site Near Catlettsburg.

Huntington got the 1904 meeting of the Ohio Valley Improvement Association.

A local man covered himself with glory at this meeting. The river improvement so far as to give the upper Ohio the greater portion of the benefit at present was defeated, principally through the earnest efforts of W. A. Patton, of Catlettsburg, president of the C. & C. Water Co., and the Ashland Water Co., who, together with the remainder of the Catlettsburg, Ashland and Ironton delegations, worked hard in hand with the Huntington delegation.

The defeat of the latter attempt secures for this vicinity the two dams that are next upon the schedule of improvements that are recommended by the Association. The first is to be constructed just below Catlettsburg, and will give a good pool of twelve feet and an excellent harbor at the mouth of Big Sandy river, which is now being locked and dammed so as to be made navigable throughout the entire year.

The dam that is next upon the schedule of improvements is to be located near Central City, and will give Huntington twelve feet of water the year round, doing away with the obstructions to navigation at Proctorville and the mouth of Guyan river, which have always been a great annoyance to river men.

Both these dams have been recommended by the government engineers.

The Pittsburg delegation to the convention sought early in the meeting to have this plan changed so that the first improvement should be made on the upper Ohio in the vicinity of Pittsburg, in order that the coal from that field could be put cheaply upon the market, rather than from the valley of the Kanawha, where the coal is not under the control of the great Pennsylvania trust and where slackwater is already assured the year round.

The Pittsburg crowd, through the Committee on Resolutions, sought to have the plan changed, and but for the activity of W. A. Patton, of Catlettsburg, would probably have succeeded. Patton was a member of the Committee on Resolutions, and fought the scheme from the outset, bringing to his side a number of the committee men, and threatening, in case the committee reported for a change, to bring in a minority report and fight the matter out upon the floor of the convention.

The Pittsburg crowd, rather than have any fight, finally backed down, and the resolutions, as recommended by the minority, finally went through.—Ashland Independent.
